PROFESSIONAL SUMMARY

Motivated Data Science student with practical knowledge of Python, SQL, Pandas, NumPy, Machine Learning, NLP, Data Analysis and Data Visualization. Interested in building AI-based applications and solving real-world problems using data and machine learning.

TECHNICAL SKILLS

Python • SQL • Machine Learning • Deep Learning • NLP • Pandas • NumPy • Scikit-learn • TensorFlow • PyTorch • Statistics • Data Analysis • Data Visualization • Matplotlib • Power BI • Excel • Git • GitHub

EDUCATION

B.Tech in Computer Science / Data Science

SVCE, Tirupati | Expected Graduation: 2027

Relevant coursework: Data Science, Machine Learning, Statistics, Python, Database Systems

EXPERIENCE

Data Science Intern — Student Internship Program

2026

- Worked with Python and Pandas for basic data analysis and preprocessing.
- Explored machine learning techniques for recommendation and text-analysis projects.
- Developed and tested Python-based applications for student and internship support.

PROJECTS

AI Resume Reviewer

- Developed an NLP-based resume analysis application using Python, PyPDF2, Scikit-learn and Streamlit. Implemented PDF text extraction, skill extraction, education and experience analysis, keyword analysis, ATS compatibility, resume scoring, feedback generation and job-description matching.

AI Internship Recommendation Engine

- Built a recommendation system using Python and Pandas to recommend internships, projects and learning resources using content-based, collaborative and hybrid approaches.

AI Code Review Assistant

- Created a Python-based assistant that analyzes source code, provides review feedback and generates a review score from 0 to 100.

CERTIFICATIONS

- Python Programming Certification
- Machine Learning Fundamentals
- Data Science / NLP Fundamentals

ACHIEVEMENTS & ACTIVITIES

- Completed hands-on academic projects in AI, Data Science and NLP.
- Built and maintained projects using Git and GitHub.
- Interested in AI applications for student support and career development.

KEYWORDS

Python, SQL, Machine Learning, Data Analysis, Statistics, Pandas, NumPy, Scikit-learn, Data Visualization, NLP, Deep Learning, TensorFlow, PyTorch, Matplotlib, Power BI, Tableau, Excel
